

CLUBROOT

The Ministry of Agriculture in partnership with SaskCanola is offering free clubroot soil testing to ratepayers.

All results are confidential, and landowners **do not need to indicate the land location on the kits or chain of custody forms.**

The RM **will not be told the results and there will be **NO** regulatory consequences if a sample is positive for clubroot DNA. However, positive results will be reflected in the Provincial clubroot map at the RM level.**

The deadline to have the filled kits returned to the RM office is **October 27th.**

Any further questions, please call **Colleen Fennig # 306-946-9895**
