SARM resolution

009/25 RATKE

> That the following resolution be submitted to SARM for consideration at the March 1-13, 2025 convention.

Whereas the

The RM of Meadow Lake No.588 has over 500 miles of roadways that serve a varied mixture of grain farms, pastures, logging operations and residential acreages.

And whereas

The Rural Integrated Roads for Growth does support some road development but only if the right of way is 42 meters.

And whereas

The RM of Meadow Lake does not have any roads with this amount of width and the cost of obtaining land agreements especially where there are multiple rural acreages is of little benefit if the road widening is not needed.

Therefore be it resolved that

SARM investigate a new program that would help subsidize the use of road stabilization products for rural roads that do not meet current restrictions for road right of way width.
